HISTORIC AMERICAN ENGINEERING RECORD

NY-114

OLD CROTON AQUEDUCT
JEWELS BROOK CULVERT

Date: 1838-39

Location: Spanning Station Rd., Irvington, Westchester County, New York.

Engineer: John B. Jervis

Owner: Originally; New York City Water Board
Presently; Tatic State Parkway Authority.

Significance: The Old Croton Aqueduct is an outstanding example of 19th century civil engineering and was New York City's first municipal water project. In Irvington, the aqueduct not only had to cross Jewels Brook but also had to maintain grade through the valley and span a county road that could not be moved

Transmitted by: Daniel Clement, 1984. For further information regarding the Old Croton Aqueduct please refer to NY-107 through NY-113 and NY-115 through NY-120 (HAER).
